Nisha Pillai

Data Engineer

RESUME_1571

Location: Chandigarh, Punjab, India | Email: nisha.pillai.resume_1571@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 1 year

PROFESSIONAL SUMMARY

Data Engineer with 1 year of experience in engineering, using Python, SQL, Apache Spark, Airflow. Experienced in etl/elt, data lineage and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: BigQuery, Python, Great Expectations, AWS S3, Delta Lake, Kafka, dbt, Data Modeling, Apache Spark, Airflow, SQL, Snowflake

Methods: ETL/ELT, Data lineage, Data reliability

PROFESSIONAL EXPERIENCE

Data Engineer | QuantaSpring Systems | Jul 2025 - Present

- Reduced nightly pipeline duration by 21% through partition tuning and predicate pushdown
- Processed 174 daily source records with incremental checkpointing
- Lowered compute expenditure by 32% using workload sizing and storage pruning

PROJECTS

Finance Reporting Mart | BigQuery, dbt, SQL, Great Expectations

- Modeled reconciled SQL facts and dimensions with tested transformations.
- Documented acceptance criteria and evaluated the design using data lineage and data reliability.

Customer 360 Pipeline | Data Modeling, Apache Spark, Kafka, dbt

- Designed incremental Spark and dbt workflows with identity joins and quality checks.
- Documented acceptance criteria and evaluated the design using data lineage and data reliability.

EDUCATION

B.Tech in Computer Science and Engineering, Narmada School of Technology, 2025

Relevant Methods: ETL/ELT, Data lineage, Data reliability

CERTIFICATIONS

Databricks Lakehouse Fundamentals (2025)
