Raj Desai

Machine Learning Engineer

RESUME_1572

Location: Noida, Uttar Pradesh, India | Email: raj.desai.resume_1572@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 5 years

PROFESSIONAL SUMMARY

Machine Learning Engineer with 5 years of experience in machine learning, using Python, scikit-learn, PyTorch, TensorFlow. Experienced in experiment reproducibility, model validation and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: TensorFlow, Pandas, Feature Engineering, Python, Docker, scikit-learn, MLflow, NumPy, XGBoost, SQL, Model Monitoring, PyTorch

Methods: Experiment reproducibility, Model validation, Data leakage checks

PROFESSIONAL EXPERIENCE

Senior Machine Learning Engineer | Ridgeview Engineering | Jan 2023 - Present

- Improved validation F1 score by 12 points through leakage checks and feature selection
- Reduced online prediction latency by 15% after batching and model optimization
- Lowered false-positive alerts by 35% using threshold calibration
- Coordinated engineering design reviews, acceptance criteria and test evidence with cross-functional stakeholders.

Associate Machine Learning Engineer | VegaBridge Systems | Jul 2021 - Dec 2022

- Lowered false-positive alerts by 38% using threshold calibration
- Automated 824 recurring model evaluations with MLflow experiment tracking

PROJECTS

Demand Forecasting Service | Docker, PyTorch, SQL, TensorFlow

- Built time-series baselines, backtesting pipelines and a FastAPI prediction endpoint.
- Documented acceptance criteria and evaluated the design using model validation and data leakage checks.

Equipment Failure Predictor | Pandas, NumPy, MLflow, PyTorch

- Engineered sensor features and reproducible training experiments.
- Documented acceptance criteria and evaluated the design using model validation and data leakage checks.

EDUCATION

B.Tech in Computer Science and Engineering, Silverlake School of Engineering, 2021

Relevant Methods: Experiment reproducibility, Model validation, Data leakage checks

CERTIFICATIONS

Responsible AI Workshop (2024)
