Kunal Bansal

Computer Vision Engineer | Bengaluru, Karnataka

Email: kunalbansal107@example.com | Phone: +91-9855713584

Professional Summary

Results-oriented Computer Vision Engineer with 2+ years of experience building data-driven and production-focused solutions. Strong background in YOLO, Python, CNNs, Computer Vision, TensorFlow. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

YOLO, Python, CNNs, Computer Vision, TensorFlow, Git, OpenCV, NumPy, PyTorch, Docker

Professional Experience

Nexa Systems — Computer Vision Engineer

2024–Present

• Built and deployed object detection pipeline using YOLO, Python, CNNs, Computer Vision, TensorFlow, improving operational efficiency by 37%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Git, OpenCV, NumPy, PyTorch, Docker for development, analysis, deployment, monitoring, and version control.

BlueOrbit Software — Associate Computer Vision Engineer

2022–2024

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Object Detection Pipeline

• Built an end-to-end solution using YOLO, Python, CNNs, Computer Vision, TensorFlow, Git.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; YOLO, Python, CNNs, Computer Vision, TensorFlow, Git, OpenCV, NumPy, PyTorch, Docker; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
