Arjun Shah

Generative AI Engineer | Ahmedabad, Gujarat

Email: arjunshah138@example.com | Phone: +91-9839835008

Professional Summary

Results-oriented Generative AI Engineer with 1+ years of experience building data-driven and production-focused solutions. Strong background in LangChain, PyTorch, Vector Databases, FastAPI, Docker. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

LangChain, PyTorch, Vector Databases, FastAPI, Docker, Python, RAG, Embeddings

Professional Experience

DataBridge Labs — Generative AI Engineer

2025–Present

• Built and deployed support copilot using LangChain, PyTorch, Vector Databases, FastAPI, Docker, improving operational efficiency by 14%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Python, RAG, Embeddings for development, analysis, deployment, monitoring, and version control.

InnoStack Technologies — Generative AI Engineer

2023–2025

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Support Copilot

• Built an end-to-end solution using LangChain, PyTorch, Vector Databases, FastAPI, Docker, Python.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Generative AI Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
