Tanya Desai

Computer Vision Engineer | Jaipur, Rajasthan

Email: tanyadesai150@example.com | Phone: +91-9818185099

Professional Summary

Results-oriented Computer Vision Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in Docker, Computer Vision, NumPy, CNNs, OpenCV. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Docker, Computer Vision, NumPy, CNNs, OpenCV, TensorFlow, PyTorch, Python, YOLO, Git

Professional Experience

Nexa Systems — Computer Vision Engineer

2023–Present

• Developed industrial defect detection for manufacturing, using Docker, Computer Vision, NumPy, CNNs, OpenCV; reduced processing time by 36%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used TensorFlow, PyTorch, Python, YOLO, Git for development, analysis, deployment, monitoring, and version control.

QuantumWorks — Computer Vision Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Industrial Defect Detection

• Built an end-to-end solution using Docker, Computer Vision, NumPy, CNNs, OpenCV, TensorFlow.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; Docker, Computer Vision, NumPy, CNNs, OpenCV, TensorFlow, PyTorch, Python, YOLO, Git; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
