Kavya Verma

Computer Vision Engineer | Delhi NCR

Email: kavyaverma194@example.com | Phone: +91-9815830187

Professional Summary

Results-oriented Computer Vision Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in TensorFlow, NumPy, Computer Vision, PyTorch, CNNs. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

TensorFlow, NumPy, Computer Vision, PyTorch, CNNs, YOLO, Python, OpenCV, Git, Docker

Professional Experience

InnoStack Technologies — Computer Vision Engineer

2023–Present

• Built and deployed image classification system using TensorFlow, NumPy, Computer Vision, PyTorch, CNNs, improving operational efficiency by 20%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used YOLO, Python, OpenCV, Git, Docker for development, analysis, deployment, monitoring, and version control.

DataBridge Labs — Computer Vision Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Image Classification System

• Built an end-to-end solution using TensorFlow, NumPy, Computer Vision, PyTorch, CNNs, YOLO.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; TensorFlow, NumPy, Computer Vision, PyTorch, CNNs, YOLO, Python, OpenCV, Git, Docker; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
