Aditya Iyer

Computer Vision Engineer | Mumbai, Maharashtra

Email: adityaiyer401@example.com | Phone: +91-9847898265

Professional Summary

Results-oriented Computer Vision Engineer with 2+ years of experience building data-driven and production-focused solutions. Strong background in Docker, Computer Vision, OpenCV, NumPy, PyTorch. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Docker, Computer Vision, OpenCV, NumPy, PyTorch, CNNs, Python, YOLO

Professional Experience

Apex Infotech — Computer Vision Engineer

2024–Present

• Implemented production-ready industrial defect detection with Docker, Computer Vision, OpenCV, NumPy, PyTorch, achieving 34% improvement in a key business metric.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used CNNs, Python, YOLO for development, analysis, deployment, monitoring, and version control.

CloudAxis Systems — Associate Computer Vision Engineer

2022–2024

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Industrial Defect Detection

• Built an end-to-end solution using Docker, Computer Vision, OpenCV, NumPy, PyTorch, CNNs.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; Docker, Computer Vision, OpenCV, NumPy, PyTorch, CNNs, Python, YOLO; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
