Rohan Bansal

Machine Learning Engineer | Bengaluru, Karnataka

Email: rohanbansal444@example.com | Phone: +91-9849011805

Professional Summary

Results-oriented Machine Learning Engineer with 4+ years of experience building data-driven and production-focused solutions. Strong background in PyTorch, NumPy, scikit-learn, MLflow, TensorFlow. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

PyTorch, NumPy, scikit-learn, MLflow, TensorFlow, Pandas, Python, Docker, Git, SQL

Professional Experience

QuantumWorks — Machine Learning Engineer

2022–Present

• Designed and evaluated customer churn prediction using PyTorch, NumPy, scikit-learn, MLflow, TensorFlow; automated 17% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Pandas, Python, Docker, Git, SQL for development, analysis, deployment, monitoring, and version control.

Apex Infotech — Associate Machine Learning Engineer

2021–2022

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Customer Churn Prediction

• Built an end-to-end solution using PyTorch, NumPy, scikit-learn, MLflow, TensorFlow, Pandas.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

M.Tech in Artificial Intelligence, 2023

Certifications

• Applied Machine Learning Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Machine Learning Engineer; PyTorch, NumPy, scikit-learn, MLflow, TensorFlow, Pandas, Python, Docker, Git, SQL; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
