Professional Summary

Results-oriented NLP Engineer with 2+ years of experience building data-driven and production-focused solutions. Strong background in Hugging Face, SQL, NLP, Transformers, Git. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Hugging Face, SQL, NLP, Transformers, Git, Python, Docker, spaCy, PyTorch, BERT

Professional Experience

Nexa Systems — NLP Engineer

2024–Present

• Designed and evaluated text summarization service using Hugging Face, SQL, NLP, Transformers, Git; automated 37% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Python, Docker, spaCy, PyTorch, BERT for development, analysis, deployment, monitoring, and version control.

TechNova Solutions — Associate NLP Engineer

2022–2024

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Text Summarization Service

• Built an end-to-end solution using Hugging Face, SQL, NLP, Transformers, Git, Python.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

M.Tech in Artificial Intelligence, 2023

Certifications

• Applied NLP Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
