Sneha Verma

Generative AI Engineer | Chennai, Tamil Nadu

Email: snehaverma450@example.com | Phone: +91-9848255801

Professional Summary

Results-oriented Generative AI Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in Embeddings, LLMs, Docker, PyTorch, Python. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Embeddings, LLMs, Docker, PyTorch, Python, Vector Databases, Git, RAG, FastAPI, LangChain

Professional Experience

Nexa Systems — Generative AI Engineer

2023–Present

• Built and deployed resume intelligence chatbot using Embeddings, LLMs, Docker, PyTorch, Python, improving operational efficiency by 28%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Vector Databases, Git, RAG, FastAPI, LangChain for development, analysis, deployment, monitoring, and version control.

QuantumWorks — Generative AI Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Resume Intelligence Chatbot

• Built an end-to-end solution using Embeddings, LLMs, Docker, PyTorch, Python, Vector Databases.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Sc. in Computer Science, 2022

Certifications

• Applied Generative AI Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
