Tanya Bansal

Machine Learning Engineer | Bengaluru, Karnataka

Email: tanyabansal455@example.com | Phone: +91-9824888976

Professional Summary

Results-oriented Machine Learning Engineer with 5+ years of experience building data-driven and production-focused solutions. Strong background in Git, scikit-learn, Docker, MLflow, PyTorch. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Git, scikit-learn, Docker, MLflow, PyTorch, Pandas, NumPy, Python, SQL, TensorFlow

Professional Experience

NextGen Analytics — Machine Learning Engineer

2021–Present

• Designed and evaluated recommendation system using Git, scikit-learn, Docker, MLflow, PyTorch; automated 27% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Pandas, NumPy, Python, SQL, TensorFlow for development, analysis, deployment, monitoring, and version control.

InnoStack Technologies — Machine Learning Engineer

2021–2021

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Recommendation System

• Built an end-to-end solution using Git, scikit-learn, Docker, MLflow, PyTorch, Pandas.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Machine Learning Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Machine Learning Engineer; Git, scikit-learn, Docker, MLflow, PyTorch, Pandas, NumPy, Python, SQL, TensorFlow; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
