Rohan Nair

NLP Engineer | Jaipur, Rajasthan

Email: rohannair479@example.com | Phone: +91-9885910137

Professional Summary

Results-oriented NLP Engineer with 5+ years of experience building data-driven and production-focused solutions. Strong background in Python, BERT, Transformers, Hugging Face, spaCy. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Python, BERT, Transformers, Hugging Face, spaCy, Git, Docker, SQL, NLP

Professional Experience

TechNova Solutions — NLP Engineer

2021–Present

• Built and deployed sentiment analysis pipeline using Python, BERT, Transformers, Hugging Face, spaCy, improving operational efficiency by 38%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Git, Docker, SQL, NLP for development, analysis, deployment, monitoring, and version control.

DataBridge Labs — NLP Engineer

2021–2021

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Sentiment Analysis Pipeline

• Built an end-to-end solution using Python, BERT, Transformers, Hugging Face, spaCy, Git.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Sc. in Computer Science, 2022

Certifications

• Applied NLP Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
