Kavya Shah

Software Engineer | Bengaluru, Karnataka

Email: kavyashah221@example.com | Phone: +91-9850789378

Professional Summary

Results-oriented Software Engineer with 2+ years of experience building data-driven and production-focused solutions. Strong background in SQL, PostgreSQL, Java, Python, Git. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

SQL, PostgreSQL, Java, Python, Git, Linux, Unit Testing

Professional Experience

InnoStack Technologies — Software Engineer

2024–Present

• Designed and evaluated workflow automation platform using SQL, PostgreSQL, Java, Python, Git; automated 29% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Linux, Unit Testing for development, analysis, deployment, monitoring, and version control.

QuantumWorks — Software Engineer

2022–2024

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Workflow Automation Platform

• Built an end-to-end solution using SQL, PostgreSQL, Java, Python, Git, Linux.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Software Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
