Arjun Gupta

Backend Engineer | Mumbai, Maharashtra

Email: arjungupta292@example.com | Phone: +91-9865989834

Professional Summary

Results-oriented Backend Engineer with 4+ years of experience building data-driven and production-focused solutions. Strong background in Docker, Java, Python, Git, Django. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Docker, Java, Python, Git, Django, AWS, Redis, PostgreSQL

Professional Experience

NextGen Analytics — Backend Engineer

2022–Present

• Designed and evaluated event-driven backend using Docker, Java, Python, Git, Django; automated 32% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used AWS, Redis, PostgreSQL for development, analysis, deployment, monitoring, and version control.

Apex Infotech — Backend Engineer

2021–2022

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Event-Driven Backend

• Built an end-to-end solution using Docker, Java, Python, Git, Django, AWS.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Backend Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
