Ananya Shah

Machine Learning Engineer | Ahmedabad, Gujarat

Email: ananyashah12@example.com | Phone: +91-9888406989

Professional Summary

Results-oriented Machine Learning Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in Docker, Git, PyTorch, Python, SQL. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Docker, Git, PyTorch, Python, SQL, NumPy, scikit-learn, Pandas, MLflow, TensorFlow

Professional Experience

DataBridge Labs — Machine Learning Engineer

2023–Present

• Implemented production-ready customer churn prediction with Docker, Git, PyTorch, Python, SQL, achieving 25% improvement in a key business metric.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used NumPy, scikit-learn, Pandas, MLflow, TensorFlow for development, analysis, deployment, monitoring, and version control.

InnoStack Technologies — Associate Machine Learning Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Customer Churn Prediction

• Built an end-to-end solution using Docker, Git, PyTorch, Python, SQL, NumPy.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Sc. in Computer Science, 2022

Certifications

• Applied Machine Learning Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Machine Learning Engineer; Docker, Git, PyTorch, Python, SQL, NumPy, scikit-learn, Pandas, MLflow, TensorFlow; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
