Sneha Shah

Computer Vision Engineer | Kolkata, West Bengal

Email: snehashah37@example.com | Phone: +91-9821819185

Professional Summary

Results-oriented Computer Vision Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in CNNs, YOLO, OpenCV, Computer Vision, TensorFlow. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

CNNs, YOLO, OpenCV, Computer Vision, TensorFlow, Git, Python, PyTorch, NumPy

Professional Experience

TechNova Solutions — Computer Vision Engineer

2023–Present

• Built and deployed image classification system using CNNs, YOLO, OpenCV, Computer Vision, TensorFlow, improving operational efficiency by 32%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Git, Python, PyTorch, NumPy for development, analysis, deployment, monitoring, and version control.

InnoStack Technologies — Associate Computer Vision Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Image Classification System

• Built an end-to-end solution using CNNs, YOLO, OpenCV, Computer Vision, TensorFlow, Git.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; CNNs, YOLO, OpenCV, Computer Vision, TensorFlow, Git, Python, PyTorch, NumPy; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
