Sneha Reddy

Computer Vision Engineer | Hyderabad, Telangana

Email: snehareddy58@example.com | Phone: +91-9877144075

Professional Summary

Results-oriented Computer Vision Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in OpenCV, Computer Vision, Python, TensorFlow, NumPy. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

OpenCV, Computer Vision, Python, TensorFlow, NumPy, Docker, YOLO, Git, PyTorch

Professional Experience

BlueOrbit Software — Computer Vision Engineer

2023–Present

• Implemented production-ready image classification system with OpenCV, Computer Vision, Python, TensorFlow, NumPy, achieving 24% improvement in a key business metric.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Docker, YOLO, Git, PyTorch for development, analysis, deployment, monitoring, and version control.

Nexa Systems — Computer Vision Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Image Classification System

• Built an end-to-end solution using OpenCV, Computer Vision, Python, TensorFlow, NumPy, Docker.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Computer Vision Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Computer Vision Engineer; OpenCV, Computer Vision, Python, TensorFlow, NumPy, Docker, YOLO, Git, PyTorch; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
