Kabir Iyer

Backend Engineer | Indore, Madhya Pradesh

Email: kabiriyer85@example.com | Phone: +91-9861028283

Professional Summary

Results-oriented Backend Engineer with 2+ years of experience building data-driven and production-focused solutions. Strong background in Java, Python, FastAPI, Docker, AWS. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Java, Python, FastAPI, Docker, AWS, Git, Django, Redis

Professional Experience

BlueOrbit Software — Backend Engineer

2024–Present

• Developed event-driven backend for logistics, using Java, Python, FastAPI, Docker, AWS; reduced processing time by 35%.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used Git, Django, Redis for development, analysis, deployment, monitoring, and version control.

InnoStack Technologies — Backend Engineer

2022–2024

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Event-Driven Backend

• Built an end-to-end solution using Java, Python, FastAPI, Docker, AWS, Git.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Backend Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
