Meera Mehta

Control Systems Engineer

RESUME_1940

Location: Bengaluru, Karnataka, India | Email: meera.mehta.resume_1940@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 1 year

PROFESSIONAL SUMMARY

Control Systems Engineer with 1 year of experience in control systems, using MATLAB, Simulink, PID Control, State-Space Models. Experienced in control design, stability analysis and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: Signal Processing, State-Space Models, Data Acquisition, Python, Actuators, Simulink, LabVIEW, MATLAB, Sensors, PID Control, PLC, System Identification

Methods: Control design, Stability analysis, System identification

PROFESSIONAL EXPERIENCE

Control Systems Engineer | Foresight Industrial | Jul 2025 - Present

- Improved settling time by 39% under tested operating conditions
- Completed 88 controller verification scenarios with logged sensor traces
- Reduced nuisance controller alarms by 41% using filtering and threshold design

PROJECTS

Process Dynamics Model | System Identification, Simulink, Actuators, Data Acquisition

- Identified state-space models using recorded step-response data.
- Documented acceptance criteria and evaluated the design using stability analysis and system identification.

Actuator Fault Monitor | Sensors, Data Acquisition, Python, Actuators

- Built residual-based detection checks and operator alerts.
- Documented acceptance criteria and evaluated the design using stability analysis and system identification.

EDUCATION

B.Tech in Electrical Engineering, Horizon Institute of Engineering, 2025
Relevant Methods: Control design, Stability analysis, System identification

CERTIFICATIONS

MATLAB Simulink Applications (2025)
