Neha Patel

Data Engineer

RESUME_1007

Location: Shimla, Himachal Pradesh, India | Email: neha.patel.resume_1007@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 1 year

PROFESSIONAL SUMMARY

Data Engineer with 1 year of experience in engineering, using Python, SQL, Apache Spark, Airflow. Experienced in etl/elt, data lineage and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: Airflow, Kafka, BigQuery, Apache Spark, Great Expectations, SQL, Python, PySpark, Delta Lake, Snowflake, AWS S3, dbt

Methods: ETL/ELT, Data lineage, Data reliability

PROFESSIONAL EXPERIENCE

Data Engineer | Cedarwave Systems | Jul 2025 - Present

- Processed 559 daily source records with incremental checkpointing
- Lowered compute expenditure by 39% using workload sizing and storage pruning
- Increased data quality pass rate to 95% using rule-based validation

PROJECTS

Streaming Event Lakehouse | Airflow, PySpark, BigQuery, Apache Spark

- Built Kafka ingestion, partitioned tables and watermark-based event processing.
- Documented acceptance criteria and evaluated the design using data lineage and data reliability.

Customer 360 Pipeline | dbt, SQL, AWS S3, Snowflake

- Designed incremental Spark and dbt workflows with identity joins and quality checks.
- Documented acceptance criteria and evaluated the design using data lineage and data reliability.

EDUCATION

B.Tech in Computer Science and Engineering, Silverlake School of Engineering, 2025
Relevant Methods: ETL/ELT, Data lineage, Data reliability

CERTIFICATIONS

dbt Analytics Engineering (2025)
