Rahul Das

Generative AI / RAG Engineer

RESUME_1009

Location: Raipur, Chhattisgarh, India | Email: rahul.das.resume_1009@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 5 years

PROFESSIONAL SUMMARY

Generative AI / RAG Engineer with 5 years of experience in generative ai / rag, using Python, RAG, LLMs, LangChain. Experienced in grounded responses, hybrid search and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: LangChain, LLMs, RAG, FastAPI, Docker, Vector Embeddings, Python, FAISS, Evaluation, Qdrant, Reranking, LlamaIndex

Methods: Grounded responses, Hybrid search, Retrieval evaluation

PROFESSIONAL EXPERIENCE

Senior Generative AI / RAG Engineer | VegaBridge Systems | Jan 2023 - Present

- Indexed 600 documents with stable source IDs and traceable metadata
- Improved retrieval recall-at-5 by 6 points using chunking experiments and reranking
- Lowered average retrieval latency by 24% with payload filters and caching
- Coordinated engineering design reviews, acceptance criteria and test evidence with cross-functional stakeholders.

Associate Generative AI / RAG Engineer | HelioNex Labs | Jul 2021 - Dec 2022

- Lowered average retrieval latency by 31% with payload filters and caching
- Reduced unsupported responses by 20% through citation gating and answer verification

PROJECTS

Document Search Assistant | Docker, FAISS, RAG, Vector Embeddings

- Created OCR-free PDF extraction, section-aware chunking, dense retrieval and cited responses.
- Documented acceptance criteria and evaluated the design using hybrid search and retrieval evaluation.

Internal Knowledge Copilot | Qdrant, LLMs, Reranking, Evaluation

- Built hybrid keyword/vector search with source attribution and refusal rules.
- Documented acceptance criteria and evaluated the design using hybrid search and retrieval evaluation.

EDUCATION

B.Tech in Computer Science and Engineering, Northbridge College of Technology, 2021

Relevant Methods: Grounded responses, Hybrid search, Retrieval evaluation

CERTIFICATIONS

Vector Database Fundamentals (2026)
