Trisha Iyer

Control Systems Engineer

RESUME_1752

Location: Gandhinagar, Gujarat, India | Email: trisha.iyer.resume_1752@example.com | Phone: +91-00000-00000 (placeholder)
Total Experience: 4 years

PROFESSIONAL SUMMARY

Control Systems Engineer with 4 years of experience in control systems, using MATLAB, Simulink, PID Control, State-Space Models. Experienced in control design, stability analysis and measurable delivery outcomes.

TECHNICAL SKILLS

Skills: LabVIEW, Actuators, Simulink, PLC, Python, PID Control, Data Acquisition, Signal Processing, State-Space Models, System Identification, MATLAB, Sensors

Methods: Control design, Stability analysis, System identification

PROFESSIONAL EXPERIENCE

Control Systems Engineer | QuantaSpring Systems | Jan 2024 - Present

- Reduced nuisance controller alarms by 21% using filtering and threshold design
- Improved settling time by 25% under tested operating conditions
- Completed 387 controller verification scenarios with logged sensor traces
- Coordinated engineering design reviews, acceptance criteria and test evidence with cross-functional stakeholders.

Associate Control Systems Engineer | Evergrid Technologies | Jul 2022 - Dec 2023

- Completed 550 controller verification scenarios with logged sensor traces
- Reduced steady-state control error by 18% after retuning controller gains

PROJECTS

Process Dynamics Model | System Identification, Data Acquisition, State-Space Models, MATLAB

- Identified state-space models using recorded step-response data.
- Documented acceptance criteria and evaluated the design using stability analysis and system identification.

Temperature Control Rig | MATLAB, Signal Processing, LabVIEW, Sensors

- Developed PID logic and sensor linearization checks.
- Documented acceptance criteria and evaluated the design using stability analysis and system identification.

EDUCATION

B.Tech in Electrical Engineering, Blue River College of Technology, 2022
Relevant Methods: Control design, Stability analysis, System identification

CERTIFICATIONS

Instrumentation Workshop (2023)
