Kabir Verma

Machine Learning Engineer | Jaipur, Rajasthan

Email: kabirverma353@example.com | Phone: +91-9875629343

Professional Summary

Results-oriented Machine Learning Engineer with 3+ years of experience building data-driven and production-focused solutions. Strong background in Docker, scikit-learn, Git, SQL, Python. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

Docker, scikit-learn, Git, SQL, Python, TensorFlow, Pandas, MLflow, PyTorch, NumPy

Professional Experience

CloudAxis Systems — Machine Learning Engineer

2023–Present

• Designed and evaluated customer churn prediction using Docker, scikit-learn, Git, SQL, Python; automated 23% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used TensorFlow, Pandas, MLflow, PyTorch, NumPy for development, analysis, deployment, monitoring, and version control.

TechNova Solutions — Associate Machine Learning Engineer

2021–2023

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Customer Churn Prediction

• Built an end-to-end solution using Docker, scikit-learn, Git, SQL, Python, TensorFlow.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.Tech in Computer Science and Engineering, 2021

Certifications

• Applied Machine Learning Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations

Keywords

Machine Learning Engineer; Docker, scikit-learn, Git, SQL, Python, TensorFlow, Pandas, MLflow, PyTorch, NumPy; machine learning; data analysis; APIs; deployment; testing; Git; documentation; problem solving
