Aditi Jain

Software Engineer | Bengaluru, Karnataka

Email: aditijain397@example.com | Phone: +91-9899318726

Professional Summary

Results-oriented Software Engineer with 5+ years of experience building data-driven and production-focused solutions. Strong background in PostgreSQL, Linux, Java, Docker, Git. Experienced in translating business requirements into measurable technical outcomes, collaborating with cross-functional teams, and delivering maintainable solutions.

Skills

PostgreSQL, Linux, Java, Docker, Git, C++, Unit Testing, REST APIs

Professional Experience

Nexa Systems — Software Engineer

2021–Present

• Designed and evaluated inventory management system using PostgreSQL, Linux, Java, Docker, Git; automated 34% of the previous manual workflow.

• Collaborated with cross-functional teams to gather requirements, test models/services, and document production workflows.

• Used C++, Unit Testing, REST APIs for development, analysis, deployment, monitoring, and version control.

DataBridge Labs — Associate Software Engineer

2021–2021

• Developed reusable pipelines, APIs, dashboards, or ML workflows aligned with business requirements.

• Participated in code reviews, testing, debugging, documentation, and deployment activities.

• Monitored performance and iterated on solutions based on stakeholder feedback and production results.

Projects

Inventory Management System

• Built an end-to-end solution using PostgreSQL, Linux, Java, Docker, Git, C++.

• Added validation, testing, logging, and documentation to improve reliability.

• Presented findings and implementation details to technical and non-technical stakeholders.

Education

B.E. in Information Technology, 2022

Certifications

• Applied Software Engineer Fundamentals

• Practical Python and Data Engineering

• Cloud and Deployment Foundations
